

# Fundraise with Strava and JustGiving!

**roundabout**  
YOUR LOCAL YOUTH HOUSING CHARITY

Do you use Strava to record your activity? By connecting your route maps to your fundraising page, it will help your donors feel like they are on your training journey with you. It's simple to do...

## Connecting your page to Strava

1. Login to your JustGiving account and find the Fundraising Page you wish to connect with. Scroll down on your Fundraising Page and select the 'Connect Strava' button.
2. Login to or register with Strava (it's free!)
3. Finally, confirm some Strava permissions, then select and save your fitness settings/preferences.

## Top tips!

- You can disconnect your Strava account at any time and change your preferences so it doesn't show your starting and end points (for security).
- You can also add photos of your exercise and yourself which will update onto your Just Giving page.
- Connecting your Strava account will show how much time and effort you are putting in, working hard so you know you will complete your challenge. This way you can let your supporters know too!
- You will also be able to share your personal best's and milestones, which is great if you are building up to a big event.
- To allow this to work, you must be logged into Strava and press start and finish on each workout

“ The stats show that you'll raise 40% more on average, when you share your fitness activities on JustGiving. ”
